Jensen AM/FM/CD Sirius Stereo Combo Package

MSR4050G AM/FM/CD Sirius Satellite Ready Stereo
• 160 Watts
• AM/FM/CD
• SIRIUS Satellite Radio Ready
• Front 1/8" stereo plug for an I-Pod or MP3 player
• Positive LCD Display
• Zero Memory Current Draw
• Wired Remote capable (MWR75 –MWR100)
• Wireless Remote Capable (MRF 27)

AMS602W Speakers:
• 6-1/2" Coaxial Speaker - 60 Watts - White

Lowrance LMS-525C DF Sonar/GPS Chartplotter Combo

NEW!

MSR4050G AM/FM/CD Sirius Satellite Ready Stereo
• 16-bit color SolarMax™ TFT
• 480 x 480 display resolution
• Dual-frequency 50/200 kHz
• Precision 12-parallel channel external GPS+WAAS receiver
• Lowrance radar compatible
• LowranceNET® networking (NMEA 2000® certification pending)
• 5-pin Ethernet expansion port compatible for radar and satellite radio

Designed for salt water or downrigger tracking, this dual-frequency sonar/GPS chartplotter provides additional 50 kHz readings, in addition to a high-res 480 x 480 display on a 5" screen and many professional features.

Item	Model	Ship	Net
256890	**123-36**	2 lbs	$646.99

LMS-520C Multifunction 5" Display Only

5" diagonal, 256-color, SolarMAX, TFT display for maximum visibility and widest viewing angles even in bright sunlight. The SolarMAX Color Display is a proprietary Lowrance color screen technology that uniquely produces maximum visibility with the widest viewing angles even in bright sunlight. Also enhances the rendering of exceptional display detail and definition. You must add this display to an existing system as a second station or add a transducer for sonar readings and an antenna for GPS. The unit will not work without a transducer and antenna!

NEW!

• 480 x 480 pixel resolutionscent cold-cathode screen and keypad backlighting
• Requires high-speed, transom-mount 200 kHz Skimmer transducer with built-in temp sensor and up to 60° of fish detection coverage
• 2,400 watts peak-to-peak power, depths to 900 ft.*
• Compatible for NMEA 2000 networking/radar/satellite radio
• 5-pin Ethernet expansion port compatible for radar, video and satellite radio
• NMEA 2000 Connectivity: Designed compatibility for versatile performance data-sharing with all NMEA 2000 protocol networks and sensors.

Item	Model	Ship	M.A.P.
256939	**123-41**	6 lbs	$599.00

*Actual depth capabilities depend on transducer configuration and installation, bottom composition and water conditions. All sonar units typically read deeper in fresh water than salt water.

Grundig G6 Aviator Radio

With the Grundig G6 Aviator at your side, you'll always have great listening options. Tune in to AM, FM, the VHF aircraft band or shortwave frequencies easily with direct keypad entry. Or, use the AUTO tuning feature to browse stations and stop on the next available frequency. You can also use "D5" tuning to get a taste of what's playing—stop on the next available frequency for five seconds at a time. This advanced dual conversion circuit also features the reception of S.S.B. (Single Side Band) signals. Use the international clock and wake-up alarms to keep you on schedule, wherever your travels take you.

NEW!

This radio comes with an AC adapter and earbuds. It can operate from two regular or NiCad AA cells (not supplied)

Quantum Accuaire 750

NEW!

OZONE AIR PURIFIER UP TO 750 SQ. FT.
Enhance the boating experience for owners, operators, and their passengers while effectively maintaining the environmental quality of all living spaces with the AccuAire™ 750. An operational compliment to the vessels with the BilgeBuster™ system(s) already installed.
Utilizes patented Puri-Stat™ sensor technology that allows for fully automatic operation. The AccuAire™ produces ozone only while the built in sensor detects unwanted airborne contaminates, thus allowing for safe operation in all living spaces.
Ideal for use in Salons, Cabins and Staterooms.
  • Works in both Sensor and Manual mode
  • Maintenance Free Ozone Plates
  • Quiet Operation (40cfm fan)
  • Fully Automatic
  • Produces Negative Ions
  • 6ft 12Vdc Car Adapter
  • Works on both 12V DC and 110V AC
  • Re-Usable, washable filters
  • Made in USA

Size:	8" L x 6.5" W x 4.25" H
Weight:	2 lb
Color:	Black
Enclosure:	ABS Plastic
Power:	12Vdc @ 1.2 Amp (110 Vac Adapter included)
Fan Speed:	40 CFM
Watts:	14 Watts

Aqua Signal Watertight Engine Room Light - 12 VDC

NEW!

FOR SPORT OR FISHING BOATS
• Handy dimensions offers optimized use on board; Workshops, engine rooms, stores, holds, passage ways, etc.
• Designed According to rules of maritime classification societies, additional VDE and IEC/EN.
• Meets requirements for SAEJ1171 for ignition protection. Protection degree: IP67

Specifications:
• Housing: Zinc coated steel sheet, deep drawn, seamless
• Finish: Powder coated white RAL 9016 and enamelled up to 70 - 80 Ìm thickness
• Diffuser: Polycarbonate clear
• Electric: Flexible wiring, heat resistant up to 105°C (221 F)
• Cable entry: 1xM20x1.5 plastic for cable dia. 7-13 mm + 3 blind plug M20x1.5 plastic
• Lamp base: G5
• Light sources (not included): T16 fluorescent lamp 8W (Part No. 91024-1)
• Mounting: 2 mounting holes dia. 10 mm

Item	Model	Ship	Net
700993	**10242-1** Watertight Engine room light	5 lbs	$418.95
700994	**91024-1** Fluorescent light - For use with 10242-1 Watertight Engine Room Light (uses 2 bulbs)	1 lbs	17.99

Wheelhouse Marketing Underwater Boat Accent Lights

• 12 high bright, energy efficient white LEDs, visible to 12' (depending on water clarity)
• Low current draw, 0.15 Amp per light, does not require power supplies or Ballasts, just hook to DC power
• Reverse polarity protection, the unit will not damage if hooked to reverse supply, just correct and turn back on
• The unit is so efficient that most of the energy is turned into light and not heat
• Operating Voltage: 12 to 36 Volts
• Operating Current: 120mA (typical) 150mA (max)
• Voltage ripple tolerance: 0.5 Volt (max)
• Thermal Cutoff, "OFF" threshold,: 177 to 180 Deg F
• Thermal Cutoff, "ON" (recover) threshold: 165 to 168 Deg F
• Light Materials: ABS and Tempered Glass
• Housing Material: ABS or Bronze
• Cable length: 10 feet
• Maximum Hull Thickness: 2.5"
• Warranty: 1 year from date of purchase

Shockles Portable Solar Powered LED Light
The solar powered RailLight™ easily attaches to railings on boats, RVs, decks and much more. Are you looking for solar powered light you can mount anywhere? The tough, secure rail clamp will quickly fasten and unfasten to any rail without scratching the finish and you can adjust the angle and height to match your space and needs or use the larger transom clamp that attaches in either a horizontal or vertical position and will quickly secure the RailLight to any edge up to two inches thick. There's a so you can easily turn off the RailLight if you want total darkness.

- Made from coated stainless steel to resist corrosion and provide years of service
- Sturdy, lightweight and waterproof
- Solar panel is designed for many years of use
- Bright white LEDs will last for over 10,000 hours
- Charge up the RailLight outside during the day and use it inside your boat at night
- Easily attaches to railings from 3/4" to 1 1/4"
- Comes complete with two types of clamps:
  - Circular rail clamp that will easily clip onto any round rail
  - Larger transom clamp that attaches in either a horizontal or vertical position and will quickly secure the RailLight to any edge up to two inches thick
- Attaches in seconds; no wires, no batteries, no costly installation
- Small, weather-protected on/off switch

613672	960027	Fits over 2" - 2" Spreader	1 lbs	26.99

Watercounter™ Water Management System
Allows you to:
- Accurately check the capacity of your tank.
- Preset the capacity of your tank in the Digital Display
- When you top off your tank and press the reset button, the tank's capacity is displayed.
- As you use water the Digital Display counts down (by gallons) to zero.
- A preset reserve can be established (if desired).
- Track water usage from several tanks with only one gauge.

Watercounter™ comes to you with the Computerized Digital Display formatted to read from zero up when the reset button is pushed. This allows you to find out how much water you can draw from your tank. Once this is determined (by topping off and using the water until the tank is empty) you simply reset the digital display to count down and change the zero set point to whatever is the gallon capacity of your tank. Each time the tank is topped off and the reset button is pushed the display shows the capacity of your tank and counts down (as gallons are used) always showing exactly how many gallons of water you have.

SCADtech SensiStat Energy Saver Refrigeration Controller
Works with your 12 or 24-volt holding (aka holdover) plate refrigeration system and reduces your battery usage by:

1. Providing extremely precise thermal control thus reducing excess running of your refrigeration compressor

2. Automatically utilizing available "excess" power while your batteries are charging. This reduces the amount of battery energy used each day for refrigeration and saves you hours of battery charging time each week. This savings translates to real dollars as you will use less fuel for battery charging and reduce wear-and-tear on your engine or generator.

How it works:

A typical thermostat turns on your refrigeration compressor to freeze holding plates solid. The plates are then allowed to defrost to a temperature approximately 8o F higher before the compressor is turned on again and the plates are refrozen. The difference between the freezing temperature and the "defrosted" temperature is known as hysteresis or differential. This is the most energy efficient method and the more precise the control, the more efficient the system and the more likely your ice cream will remain solid. The SCADtech SensiStat refrigeration controller, with a resolution of 1/10o F provides unparalleled precision of control. What's more, the SensiStat comes with temperature sensors to allow you to monitor and display both the holding plate temperature and refrigeration box temperature.

Normal thermostats also do not take advantage of randomly available "free" power provided whenever your engine or generator are running and charging your batteries. Since batteries can only charge so fast, there is normally plenty of extra generation capacity available to run your refrigeration system "for free", that is using energy without depleting your batteries. When the SCADtech SensiStat refrigeration controller detects charging level voltages, it closes down the hysteresis to only 1o F and uses the available free power to "top-up" the freeze on your holding plates. For example, when you are motoring into an anchorage at the end of the day, The SensiStat will automatically run your refrigeration compressor while your engine is running and save you all the battery energy that would have been used later in the evening running the refrigeration compressor for the same amount of time directly off the batteries.

You can also tell the SCADtech SensiStat refrigeration controller to ignore extra power (such as while plugged in a dock) or to force a freezing of the holding plates for up to 60 minutes.

Additionally, the SCADtech SensiStat detects excess voltages which might damage your refrigeration system alerts you and does not over-ride the differential when excess voltages are present.

Finally, although the factory settings will work for most sailors, you can custom program the voltage threshold at which the SCADtech SensiStat overrides the differential. You can also set the holding plate freezing temperature, the normal and override differentials, the displayed temperature scale (Fahrenheit or Centigrade), and whether the holding plate or box temperature is displayed by default.

Airis Play Inflatable Kayaks

The Airis™ Play is the perfect recreational inflatable kayak. The shorter length makes it easy to manuever, whether you are exploring, or tackling whitewater. The bow keel and maximized rear skeg surface area deliver excellent tracking performance. Take Play exploring in coves, dive from it on a snorkeling adventure, or take it out in surf or river whitewater. Now you can take fun with you, wherever you go. AirPack™ backpack included! The Airis Play is incredibly lightweight, extremely stable and is quick to set-up so you'll be in the water in no time.

Features and components:

- Hi-Pressure AirWeb™ hull & floor (patent pending)
- Bow keel & rear skeg for excellent tracking
- Two molded carrying handles
- Two drain valves
- Repair kit
- AirPack™ deluxe portaging backpack
- Splash guard
- Four D-rings for attaching accessories
- Two cup holders
- Paddle sold separately
- Adjustable back rest
- Hi-Pressure air pump with gauge
- Storage bungee
- Bow bumper rail

Airis Sport Inflatable Kayaks

Loaded with features, the Airis™ Sport is a versatile kayak perfect for short expeditions or fun day trips. The long hull design combined with the rear skeg and bow keel, allow Sport to track straight making paddling easy. The bungee tie downs and integrated dry storage compartment are great for transporting gear while the rubber handles and lightweight hull make it the ideal kayak for portages. Whether you're exploring, fishing or on a quick paddle, the Airis Sport is sure to provide fun & adventure. AirPack™ backpack included!

The Airis Sport is ultra portable, super stable and simple to set-up. Kayaking has never been so easy. Available in two lengths for different sized riders. Sport is suitable for calm water and can be accessorized to fit your desired use.

Available in two lengths for different sized riders. Play is suitable for calm or whitewater and can be accessorized to fit your desired use.

• See the exact tank level at the point of filling
• Tank level is displayed on a blue LED display
• The LED varies in brightness to compensate for ambient light levels, brighter in sunlight and dimmer at night
• Prevents fuel spills during refueling
• 98% accuracy
• Operates under NMEA 2000
• Easy to install
• Cap has a recess for a standard opening key
• Heavy duty O-ring seal to keep water out of the tank
• Polished stainless steel
• Gauges attach to the existing resistive analogue gauges with a single wire. No other wiring is required
• For 1.5" filler pipe

Item	Model	Ship	Net
300191	3210-D38 Diesel	5 lbs	$292.99
300192	3210-G38 Gas	5 lbs	292.99

Offshore Multi Tank Display
The 3330 NMEA2000 MultiTank Display can show the tank levels of ALL the Fuel, Fresh Water, Grey Water, Black Water, Oil and Live Well tanks on a single graphical display. There can be multiple 3330 MultiTank Displays on a single network so the same information can be displayed in a multi station environment.

NEW!

• Displays ALL the Fuel, Fresh Water, Grey Water, Black Water, Oil and Live Well Tanks tanks on a single display
• The unit can show 1, 2 or 4 tanks at a time as either gauges, bar graphs or in digital form
• Displays are very user friendly
• DIN standard 4.33" x 4.33" graphical display
• Draws less than 150mA from the network
• Comes complete with a full installation and operation manual, combined power and signal cable
• Takes power from the NMEA2000 network and requires no additional wiring.
• Displays Tank Level and remaining volume in Liters, US Gallons or Gallons
• Displays Tank Names
• Single or Multiple tanks displayed
• Can be used in a multistation environment
• Low and High Tank Level Alarms
• Rugged IP67 waterproof construction
• Single plug to NMEA 2000 bus

Item	Model	Ship	Net
300193	3330	3 lbs	$878.99

Offshore NMEA 2000 Fuel Level Sender
The 3271 NMEA2000 Fuel Level Sender provides an accurate fuel level to the NMEA2000 marine network and reports it's level in 1% increments.

NEW!

• High Accuracy
• No moving parts to stick or fail
• Self Calibrating
• Stores Tank Name and Tank Shape data
• Tank depths from 250mm to 2 Metres
• Easy to install
• Standard 5 bolt mounting
• Detects water in fuel, protect your engine from expensive damage
• Robust Stainless Steel Construction
• Single plug to NMEA 2000 bus
• Displays remaining capacity in Liters, US Gallons or in Gallons
• Up to 16 Fuel Level Senders can be connected to a single network
• Sender number is simply selectable at installation by means of the small rotary switch
• Draws less than 50mA from the network
• Comes complete with a full installation/operation manual, tank gasket, and combined power/signal cable

Taylor Made Inflatable Quick-Shade Top

NEW!

- Accommodates boat widths up to 5'7" and lengths to 10'8"
- Supported by shock-corded fiberglass pole framework that breaks down for convenient storage
- Constructed from Hot Shot fabric that is lightweight, water and UV resistant
- After installation, the top sets up and attaches easily and comes down in minutes
- The large radius allows you to sit and operate the boat comfortably without crouching over and provides excellent headroom
- Comes with shade top, frame, marine grade hardware, storage bag and instructions

| Item 454641 | Model 12007OG | Ship 5 lbs | Net $109.99 |

Tectonic Recovery Mat

A non-woven polypropylene geotextile that separates and filters waste while allowing water to pass through. Ideal to catch contaminants under your boat while power washing, sanding, etc.

NEW!

- Filters the copper, paint chips, biological growth, bottom sediment, wash water, and other contaminants
- Water passes through a synthetic fiber mesh system down to very fine filtration
- Recovery mats are typically placed under a boat before being blocked for winter storage. (Insures that the mats is in place for the spring bottom paint removal, sanding grinding, etc)
- The waste and droppings from these activities will then be captured by the mat and not contaminate the soil or waterway through run-off
- After use, the pad is disposed properly as solid waste

Raymarine Marine Shield Cleaners

The Marine Shield Professional Marine Finishing System is a high performance line of uniquely formulated cleaners, sealants and compounds that effectively clean, restore, and protect boats with minimal effort and maximum results.

MARINE ELECTRONICS SCREEN CLEANER

Keep your essential marine electronic displays clear and free of salt and smudges with our Marine Electronics Screen Cleaner. A unique molecular formula specifically designed to clean today's high tech sunlight viewable displays. Marine Shield is the only screen cleaner tested and approved by Raymarine for use on all Raymarine marine electronics displays.

- Contains no alcohol, detergents, or other harmful and abrasive ingredients.
- Non-streaking and non-smearing solution cleans all types of glass and coated surfaces
- The only screen cleaner tested and approved by Raymarine

Item	Model	Description	Size	Ship	M.A.P.
752628	E52116	Screen Cleaner	2 fl. oz.	1 lbs	14.99

CONCENTRATED BOAT WASH

Super concentrated boat wash formula for fiberglass, aluminum and painted surfaces

- Super concentrated economical formula
- Innovative formula suspends dirt particles so they are easily washed away
- Sheeting action helps prevent spotting
- Non Alkaline, pH balanced is safe to use on gel coats and waxed surfaces

| 752623 | E52118 | Boat Wash | 22 fl. oz. | 2 lbs | $14.99 |

RESTORATION COMPOUND

Fast acting medium abrasive compound for gel coats and painted surfaces

- Scratch, heavy swirl, and oxidation removal
- Medium abrasive compound for painted surfaces or gel coats
- Apply by hand or machine
- Easy on/off application

| 752624 | E52114 | Restoration Compound | 22 fl. oz. | 2 lbs | 22.99 |

MARINE SEALANT

Advanced resin polymer formula for fiberglass, gel coats, aluminum and painted surfaces

- Provides a defensive shield against the harmful effects of salt water, acid rain, and ultra violet radiation
- Long lasting high gloss shine
- Advanced formulation can be applied in direct sunlight

| 752625 | E52113 | Marine Sealant | 22 fl. oz. | 2 lbs | 29.99 |

HEAVY DUTY CLEANER

Fast acting, powerful cleaning formulation - Aggressively tackles tough stains on virtually all surfaces

- Safe to clean fiberglass, sealed wood, vinyl, rubber, plastic, carpet, upholstery, canvas, metal fixtures and smooth leather
- Quickly penetrates to remove pollutants, black streaks, oils, stains, mineral deposits, salt spray, and stubborn grease and grime
- Unique formula tackles protein-based soils like blood, fish guts and vomit
- Safe to use on polished aluminum, virtually eliminates the staining and clouding caused by other spray cleaners
- Powerful detergent formulation quickly penetrates and breaks downs (demulsifies) oils on sealed and unsealed surfaces

Marine Shield Heavy Duty cleaner contains no harsh chemicals plus:

- NO phosphates
- NO butyl solvents
- NO corrosive caustics
- NO acids

| 752626 | E52111 | Heavy Duty Cleaner | 64 fl. oz. | 3 lbs | 24.99 |
| 752627 | E52112 | Heavy Duty Spray | 24 fl. oz. | 2 lbs | 14.99 |

Forte Carbon Sprit Kit

Includes everything you need: an engineered carbon fiber sprit built to withstand loads and your choice of easy-to-mount deck hardware and sail attachment hardware. Created to retrofit boats 20 to 50 feet, the Sprit Kit makes fun downwind sailing affordable and simple.

Kit Includes:
- Carbon Fiber sprit painted with clear, two part polyurethane
- Harken for attaching the tack block approximately 4" from the outboard end
- Forward Saddle mount with mounting hardware
- Aft mount: your choice of: removable deck eye with pin or another saddle mount similar to the forward mount

Sprit Length ~ The sprit can be cut to length to fit your boat. To determine required length, note that sprits normally extend 24-30" beyond the bow and that one-third of the sprit length extends beyond the bow. For example, a sprit that extends 30" beyond the bow infers that at least 60" of the sprit be mounted on deck. If you want a retractable sprit, remember to pick a deck mounting location that accommodates the full sprit length.

Item	Model	Boat Size	Tube Size	Length	Ship	Net
600867	Sprit Kit Small	15' to 27'	2" ID	6' - 8'	10 lbs	1496.99

SPOT – The World's First Satellite Messenger

NEW!

With the SPOT Satellite Messenger, you and your loved ones have peace of mind knowing help is always within reach. SPOT is the only device of its kind, using the GPS satellite network to acquire its coordinates, and then sending its location with a link to Google Maps™ and a pre-programmed message via a commercial satellite network. Unlike Personal Locator Beacons, SPOT does more than just call for help. Tracking your progress, checking in with loved ones, and non-emergency assistance are also available, all at the push of a button. And because it uses 100% satellite technology, it works where cell phones won't.

- Floats in water - Waterproof to 1 meter for up to 30 minutes
- Small and Light - Approximate Weight: 7.37oz.
- Designed for maximum reliability - performs self-diagnostic tests at power on
- One-year warranty
- Low-Cost satellite service subscription required ($99.00/yr along with other optional packages)
- Unlimited Alert 9-1-1 usage is included as part of the low-cost SPOT service plan.

Functional Specifications:
SPOT features four key functions that enable users to send messages to friends, family or emergency responders, based upon varying levels of need:
- Alert 9-1-1 – Dispatch emergency responders to your exact location
- Ask for Help – Request help from friends and family in your exact location
- Check In – Let contacts know where you are and that you're okay
- Track Progress – Send and save your location and allow contacts to track your progress using Google Maps™

Coverage - SPOT works around the world, including virtually all of North America, Europe and Australia, portions of South America, Northern Africa and Northeastern Asia, and hundreds or thousands of miles offshore of these areas. See coverage on findmespot.com for maps and current coverage. Includes 2 AA 1.5V lithium batteries.

Raymarine SeaTalk Backbone Extender

NEW!

T-Pieces and 5-Way connectors are used to create drops for spurs in the backbone. Use this backbone extender to join 2 backbone cables together. A terminator is required at each extreme end of the backbone. Use blanking plugs to protect any empty spur sockets from moisture and corrosion.

Item **256670** Model **A06030** Ship 1 lbs Net **$15.00**

Simrad IS20 Wind Vane And Bracket

NEW!

IS20 SPARE WIND TRANSDUCER (CABLE NOT INCLUDED)
The IS20 Wind Vane provides wind speed and wind direction via SimNet, so just like the depth sensor, you can connect it to any of the IS20 instruments regardless of location or function and enjoy system wide wind data.

NEW! Performance Metals Premium Aluminum Sacrificial Anodes

Manufactured from Navalloy to a military specification MIL-A-24779(SH). Navalloy is a high performance alloy! It contains aluminum, 5% zinc and traces of indium, which ensures that it stays active.

- Navalloy is more active than zinc so it gives better protection.
- Navalloy anodes last up to 30% longer than zinc anodes.
- Navalloy anodes self-clean in freshwater.
- Zinc anodes form a coating that stops them working within a few months.
- Navalloy anodes are essential for Mercury sterndrives.
- Zinc will not provide the correct protection.
- Navalloy anodes are recommended for both salt and freshwater on Mercury sterndrives.
- Navalloy anodes are environmentally friendly.
- Navalloy anodes will reactivate after exposure to the atmosphere.
- You should not mix different types of anodes on the same bonding system.
- Do not use magnesium anodes in salt or brackish water - they will over-protect aluminum outdrives or hulls.

Patented Wear Indicator:
- Imbedded plastic indicator
- Appears in surface as anode corrodes
- Tells the boater when to change!
- No argument about need to replace
- US and PCT patents pending

NEW! Collinite Liquid Fiberglass Boat Cleaner

Easily removes the following from fiberglass finishes:
- Dirt
- Film
- Oxidation
- Oil
- Grease
- Rust
- Exhaust stains

Restores the original color quickly without hard rubbing or buffing. Leaves a chemically clean surface to which Collinite waxes can bond perfectly. Increases long-lasting brilliance and performance of protective wax coating
